Tool storage

colour

size

blue

500*900*1366 mm.

Each unit offers customizable tool holders that are removable.

The cabinet also includes additional safety measures to prevent multiple shelves from being opened at the same time, as well as to prevent shelves from moving during use.

Button-operated push-button door lock

The lock core of this product is durable, anti-rust and anti-corrosion, the key is hard and firm, and the switch is smooth and easy to use

Cabinet door reinforcement

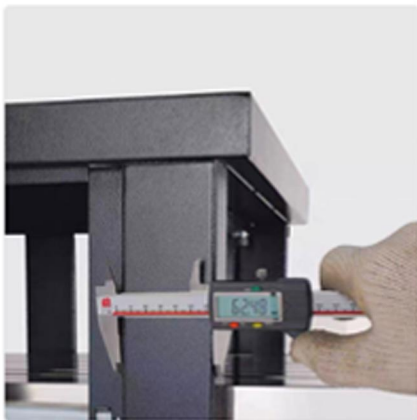

The door is completely closed design, the box and the cabinet door are strengthened and the tension is safe to use without deformation

High-temperature baking paint process

The lock core of this product is durable, anti-rust and anti-corrosion, the key is hard and firm, and the switch is smooth and easy to use

The slot of the cabinet used for storing tools

The tool cabinet uses 60mm square columns.

The three-layer upper tool mold frame and the three-layer lower tool mold shed are made of stainless steel
